3.4.6 Footway, Footpath and Cycle Track Construction		

(continued)

RDG Section	Departures from National Guide	Comments
3.4 Construction Design <i>(continued)</i>		
3.4.7 Kerbs and Edging	Variations apply	<p>On conventional roads, kerbs should be set 100 mm above finished carriageway channel level, except at pedestrian and vehicular crossings where this dimension is reduced, pedestrian crossings and vehicle accesses should be set at +6mm. Edging at the heel of footways and footpaths should be set flush with the walking surface.</p> <p>On shared surfaces an upstand of 100 mm should normally be provided except at junctions with footpaths and private accesses where kerb upstands should be as detailed above. Approval for any departure from, or clarification of, these standard details should be sought from the Local Roads Authority prior to construction commencing.</p>
3.4.8 Accesses		
3.4.9 Road Drainage and SUDS		
3.4.10 Landscape Treatment
