

# Vacant Premises Improvement Grant -Third Sector 2026/27

Guidance Document

Funded by  
UK Government

## Introduction

### Vacant Premises Improvement Grant Third Sector

The Vacant Premises Improvement Grant for Third Sector is a grant scheme aimed at supporting new and existing, formally registered, Third Sector groups (with fewer than 250 employees) located within Falkirk District's town centres. The fund will help address the issue of vacant town centre unit space (priority will be given to ground floor units), stimulate new start-up activity and support Third Sector expansion. This will help improve amenities, increase footfall and contribute to re-shaping and creating vibrant town centre environments. The three main routes to apply to the fund are as follows:

- **Third Sector landlords who own vacant units can apply where they have an identified tenant interested in the premises.**
- **Third Sector Start-Ups who want to lease an empty high street property to establish a new charitable, community or social enterprise activity location can apply.**
- **Existing Third Sector Groups seeking to expand into a new location or larger property in high streets can apply.**

Any other variations of the above three routes will be considered on a case-by-case basis.

### About this guide

This guide will help you successfully complete your Vacant Premises Improvement Grant application. It is important that you refer to all available guidance whilst completing your application. This will help avoid delays in processing your application.

### Making an application

To apply for the Vacant Premises Improvement Grant the applicant must make an initial enquiry outlining the project to

[CommunityDevelopment@falkirk.gov.uk](mailto:CommunityDevelopment@falkirk.gov.uk). The outline case will be assessed and if suitable for the fund, the applicant will be given access to the online application portal. Applicants provided access to the portal are strongly encouraged to gather all required evidence, and compile their responses offline, ahead of moving their final submission into the portal form.

Funding panels will decide on grant application outcomes and will be held on an as needs basis.

The final deadline for submitting applications will be February 2027. Please note that this fund may close early if demand is high and the fund becomes fully subscribed.

### How is funding paid?

For our Third Sector applicants, where an applicant organisation has demonstrable limited capacity in their reserves to meet the costs of the project, the Vacant Premises Improvement Grant will be paid in instalments:

- for completed elements of project work, verified through site visits or photographic evidence.
- issued only on receipt of a claims form, accompanied by official invoices from the project suppliers.
- Accompanied by any relevant statutory consent and/or compliance evidence for that element.

No payment will be released prior to the provision of full property lease or ownership evidence.

These payments are limited to up to 75% of the agreed cost line (proportions will align to the agreed match funding percentage for each project)

Where any advance is issued, the organisation must subsequently provide organisations bank/credit-card statements showing defrayal of the sums within 30 days. No further instalment claims will be processed until full defrayal evidence of prior claim amounts is received.

All applicant payment of project costs must be made using the organisations official bank account or organisation credit/debit card. Personal accounts payments or cash transactions will not be reimbursed.

Final claims will not be processed until any remaining statutory evidence is received e.g. Warrants, Inspections etc.

All project claims must be submitted by the 19<sup>th</sup> March 2027.

Applicants must ensure that all proposed projects comply with UK subsidy control law.

- Falkirk Council, as a public authority, is required to comply with the Subsidy Control Act 2022, which took effect on 4 January 2023, when awarding any funding or support. Where a provisional decision is made to fund your organisation and the Council considers that the support may constitute a subsidy, you may be asked to provide further information to allow assessment of the subsidy position.
- To complete this assessment, additional clarification or documentation may be requested prior to any grant award.
- No funding decision will be finalised until a subsidy-compliant route has been identified. Any provisional award will remain conditional on the subsidy control position being satisfactorily resolved before funding is committed.
- Falkirk Council cannot provide legal advice on subsidy control. It is the applicant's responsibility to ensure their project is compliant. The Council will, however, be happy to discuss potential subsidy exemptions or streamlined routes where appropriate following any approval in principle.
